

Different Kinds of Trees

The trunk is big. The branches are big, too.

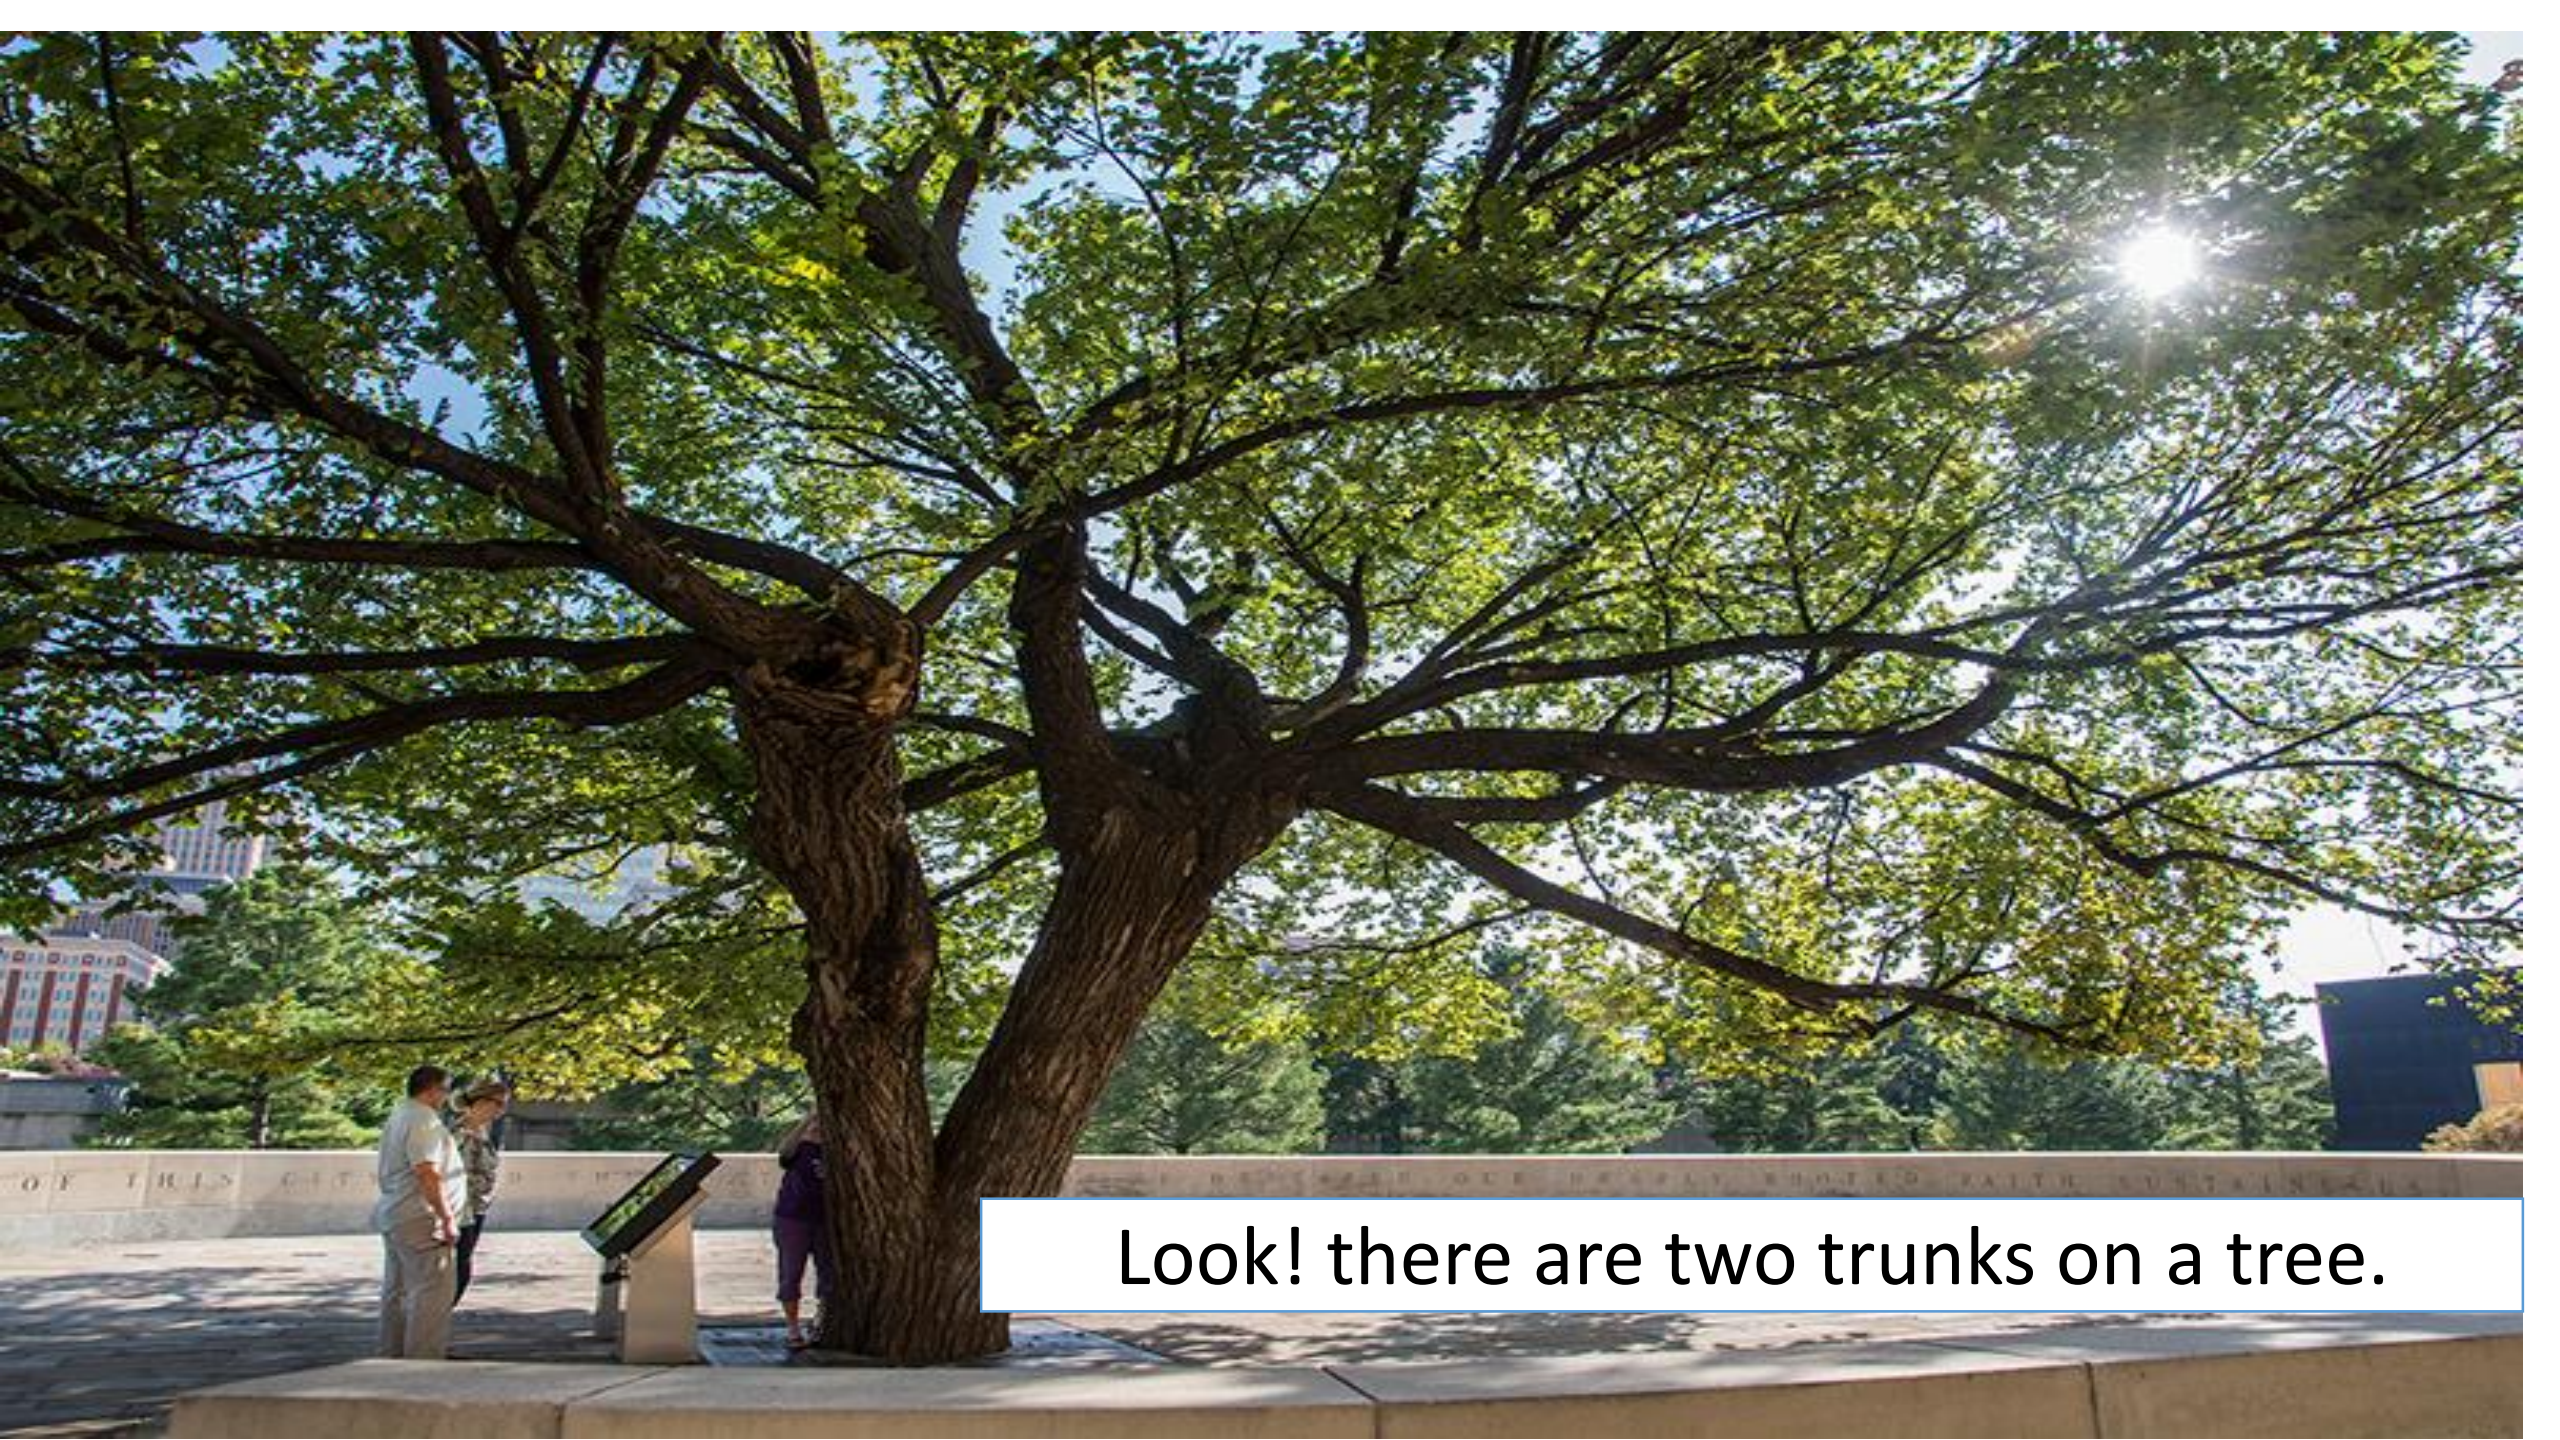

The trunk is thin and straight(直).

A large, ancient tree with a thick, gnarled trunk and spreading roots in a grassy field. The tree's canopy is dense with green leaves, and its roots are exposed and spread out across the ground. The background shows a clear sky and a line of tall grass in the distance.

The trunk is big. The roots are big, too.

Look there are many branches and twigs.

Look! there are two trunks on a tree.
