In Taiwan, most junior high school students have to wear uniforms to school. Students want to know why they should do so and why they can't wear their own clothes to school.

Some students don't want to wear uniforms because they don't think uniforms are beautiful. They don't want to wear the same clothes as others. If they wear their own clothes, they can look special and more beautiful or handsome. However, they will spend more time on clothes than the schoolwork, or they will ask their parents to buy more clothes for them.

Some students think wearing uniforms is great. First, they don't have to worry which clothes they should wear to school. Second, their parents don't need to buy too many clothes for them. Third, others will know they are students when they wear uniforms. At school, teachers can know if strangers go into their school. Fourth, they think that their uniforms look beautiful and special and that they are different from other school uniforms.

What's your opinion? Which do you think students should wear to school, uniforms or casual clothes?
