Hans: All right, Mom. I'll be ready soon.

- (A) Check it out. (B) Hurry up!
(C) Not again. (D) What a day!

五、閱讀測驗 每題 3 分 3%

Blue light is the light that comes from phones or computers. Hundreds of studies and tests have shown that blue light can make it hard for people to sleep; this means your body doesn't get the rest it needs. This can then lead to things like heart problems, feeling unhappy, and getting fat.

The good news is that there are several things people can do to stay away from this problem. One is not to look at a phone or computer two hours before going to bed. Another thing people can do is to get a lot of bright light from the sun during the day. This will help people sleep at night.

The studies have shown us a lot, but there is still more that needs to be done. We will keep on studying the dark side of blue light to help people avoid problems it may bring.

() 36. What does "the dark side of blue light" mean?

- (A) Blue light is made by factories which have a lot of problems.
(B) Blue light is not good for the eyes because it isn't bright enough.
(C) Blue light is a special kind of light that makes the room darker.
(D) Blue light is used on lots of things but it's bad for our health.

六、依提示作答 每題 3 分 12%

37. Jenny found a coffee maker under her bed. (用被動式改寫句子)

38. Bill was too full to eat any pears. (用 so...that... 改寫句子)
