Pandas are one of the most popular animals in the world. With their black and white fur, they are cute to look at and hard to forget. Sadly, there are less than 2,000 pandas left in the world. They can only be found in Southwest China. But with so many people living in China, the pandas are running out of space. To make things more difficult, pandas only have one baby every two or three years. This means that even if all living pandas are kept safe, it will take a long time for their numbers to grow. The panda is a beautiful animal, and the world would be a lonelier place without it.

35. ( ) What is this reading about? (A) Why pandas are liked so much. (B) What pandas like to eat.

Sarah: I know! But the line was terribly long, and a man behind me was trying to cut in. So I took some time to "take care of" him.

Justin: You hit him?

Sarah: Please! I'm a friendly, sweet lady! I just talked to him, well, maybe a little loudly. And... I used some words that were a little strong. When I was "talking" to the man, I didn't know I was off the line. So I had to wait all over again!

Justin: It was really hard work, huh?

Sarah: It WAS! So why don't you try some?

Justin: Well, in fact, I'm a little sick of it. Rebecca bought one last Saturday. She found it too sweet, so she took only one bite. Guess who cleaned it up?
