English words are made of 26 letters, and palindromes and anagrams are two kinds of word games about spelling. A palindrome is a word or a sentence that reads the same from left to right or from right to left, 34 , “eye,” “Bob,” “my gym,” and “Was it a car or a cat I saw?” An anagram of a word or words is made by putting the letters of the word or words in a different way. Look at the words and their anagrams below. Can you think of other possible anagrams of these words?

earth → heart
between → been wet
a tie → I eat
mistake → 35

Anagrams are often longer words that don't really mean anything but are fun to say. Sometimes they can even mean something 36 , like when a common word, “restaurant,” becomes “Eat rats, run!”

Actually, palindromes and anagrams are 37 . Palindromes can be used to learn mathematics and make music. Anagrams are also a good way to hide something. In history, people often hid their important studies in anagrams. Can you think of any other way to use them?
