Hi, everyone. Today's English class is about homonyms. Before we talk about homonyms, let's read a story first.

It was a cold and rainy night. Jasper was on his way home. There was an old man walking in front of him. "Watch out!" said Jasper to the old man when he saw a car. But, it was too late. The car hit the old man, and he lost his left arm and left leg. A few weeks later, Jasper saw the old man on the street again. "Hey, are you okay?" Jasper walked to the old man. "Well, I am all right now," said the old man. He showed Jasper his right arm and right leg.

In the story, the "right" in "all right" and the "right" in "his right arm and right leg" are homonyms. They have the same spelling but different meanings. One is "fine" or "okay," and the other is "on the right hand side." Now, can you think of another example of homonyms?
